

# C8 PRIVACY POLICY AND TERMS OVERVIEW

Understanding key policies and guidelines for users

---

# C8 PRIVACY POLICY AND PLATFORM USE

---

# INTRODUCTION TO C8 TECHNOLOGIES AND POLICY PURPOSE

## Financial Technology Focus

C8 specializes in investment research, portfolio construction, execution workflows, and FX hedging tools for professional clients.

## Privacy Policy Purpose

The policy clarifies data collection, handling, storage, and safeguards within C8's ecosystem including AI interfaces.

## Regulatory Compliance

C8 aligns with global data protection laws like UK GDPR and EU GDPR, ensuring regulatory and financial compliance.

## Transparency and User Trust

The policy ensures operational clarity, data integrity, encryption, and controlled access to build user trust.

# SCOPE OF C8'S DATA PROCESSING ACTIVITIES

## **Comprehensive Data Collection**

C8 processes data across multiple platforms including Hedge, website, Studio tools, and dashboards.

## **Operational Data Aggregation**

Aggregates currency exposures, notional values, and hedge durations for strategic insights.

## **AI-Enabled User Interaction**

Uses AI interfaces like ChatGPT Actions for natural language access to models and workflows.

## **Privacy and Data Exclusion**

Excludes personal consumer data and marketing profiling while ensuring anonymized trend analysis.

# DATA USE, PURPOSE, AND LAWFUL BASIS

## **Lawful Data Processing Bases**

C8 Technologies processes data based on legitimate interest, contractual necessity, and legal compliance obligations.

## **Essential Platform Functions**

Data processing enables FX models, risk dashboards, and AI-driven analytics for professional clients.

## **Data Use Limitations**

Personal data is not used for marketing or automated legal decisions, ensuring privacy and fairness.

## **Transparency and Responsibility**

C8 maintains a transparent framework balancing operational needs and stringent data protection principles.

# AI-ENABLED INTERFACES, CHATGPT ACTIONS, AND USER INPUTS

## **AI as Access Layer**

AI tools provide institutional users rapid insights and operational guidance for financial decisions.

## **Data Privacy and Security**

User data is processed securely without sharing identifiable information or training external models.

## **Session-Based Computation**

Inputs are processed only for session use, minimizing data storage and ensuring compliance.

## **Informational Outputs Only**

AI-generated outputs are informational and do not replace professional financial advice or decisions.

# CONTACT DETAILS AND USER RIGHTS

## **User Data Rights**

Users have rights to access, rectify, erase, restrict, port, and object to their personal data under data protection laws.

## **Contact and Support Channels**

Users can contact C8 via secure channels like designated email and website for privacy clarifications and support.

## **Governance and Compliance**

C8 maintains strict governance including identity verification and adherence to international data transfer rules.

## **Regulatory Escalation**

Users may escalate concerns to authorities like ICO or GDPR bodies depending on their jurisdiction.

# TERMS OF USE: PROFESSIONAL SCOPE AND LIABILITY

## **User Classification and Eligibility**

C8 tools are limited to professional clients and institutional users under financial regulations, ensuring responsible analytics use.

## **Liability and Disclaimers**

Outputs are informational only; users bear full responsibility, and C8 disclaims liability within legal limits.

## **Platform Misuse Prohibitions**

Misuse such as reverse engineering, data extraction, and unauthorized redistribution is strictly prohibited.

## **Legal Compliance and Jurisdiction**

Users must comply with laws including cross-border data regulations; disputes governed by England and Wales law.
